PLT (Total Stations)	431162	\$170.00	431169	\$280.00

\*Prices subject to change without notice (plus shipping and taxes)

### TOOLS THAT QUALIFY FOR FREE BASE CALIBRATION

#### Tool Fleet Management

All Measuring tools receive unlimited free calibrations during the Fleet term, including Ferrosan, X-Scan and Total Stations

Some limitations apply. Contact Hilti for full details.

#### Tool with 20-2-1 no cost period:

Tools receive one free calibration per year during the No-Cost period (two in total)

Exemptions that will not count towards the free calibration:

- The tool has been returned within 30 days after calibration and appears to have arrived back to the customer still out of calibration.
- The tool required a repair/fix/replacement of parts and calibration is part of repair: calibration is included in the cost of the repair.

All other calibrations are charged as per information above.
