To Whom It May Concern:

Re: Hilti CF 812 Window & Door Pro Filler Foam – LEEDs Info

The Hilti CF 812 Window & Door Pro Filler Foam is manufactured in Estonia.

The CF 812 can is steel and is recyclable. The amount of post-consumer or post-industrial content in CF 812 is not known and it cannot be recycled. The CF 812 does not contain any Rapidly Renewable Materials. The VOC content for CF 812 is 2.4 grams/liter. This foam contains no formaldehyde.

Due to the flammable propellant gas in CF 812 it may be regulated as a hazardous waste by the Federal EPA Standards. The regulations for disposal can vary from state to state and even city to city. For this reason, you should consult your local and state regulatory agencies for direction on disposal.

Please feel free to contact me at (918) 872-3704 if you have questions.

Sincerely,

Jerry Metcalf MPD, CHMM
