The Hilti CFS-DID is assembled in Minneapolis, Minnesota from foreign and domestic parts.

The Hilti CFS-DID has a VOC content of 0.19 grams/liter.

The post-consumer recycled content of all steel parts is 25%. The pre-consumer recycled content of all steel parts is not known. The post-consumer and pre-consumer recycled content of all other components of the CFS-DID, is not known. The metal and plastic portions of the Hilti CFS-DID are recyclable. The Hilti CFS-DID does not contain any Rapidly Renewable Materials.

The Hilti CFS-DID is not regulated as a hazardous waste by the Federal EPA Standards. The regulations for the disposal of non-regulated industrial waste can vary from state to state and even city to city. For this reason, you should consult your local and state regulatory agencies for direction on disposal.

Please feel free to contact me at (918) 872-3704 if you have questions.

Sincerely,

Jerry Metcalf MPH, CHMM
Sr. Manager Safety/Environmental
