FIRESTOP PUTTY STICK CP 618

Product description

- Easily moldable and reusable firestop putty designed to help create a fire and smoke barrier around cables and metal pipes

Applications for use

- An intumescent, non-hardening, firestop putty for single or bundled cables and non-combustible pipe penetrations
- Concrete-, masonry-, and gypsum-wall assemblies
- Wall and floor assemblies rated up to 3 hours
- Where telecommunication and data lines penetrate gypsum-wall assemblies
- Where steel conduit and EMT penetrate concrete- and block-wall assemblies
- Where blank openings exist in concrete- and block-wall assemblies

Advantages

- Quicker, simpler to install and reusable — does not harden over time
- Approval for virtually any transit type — telecom, low- and medium-voltage cables, conduits, metal pipes, and blank openings
- Adheres to concrete-, masonry-, and gypsum-wall assemblies
- Mold and mildew resistant
- Acoustically tested according to ASTM E90
- Asbestos, formaldehyde and LABS free
- Red list compliant
- Living Building Challenge (LBC) compliant

Installation instructions

- See Hilti literature or third-party listings for complete application and installation details

- Chemical basis: Moldable putty
- Color: Red
- Recommended application temperature: 32° F to 104° F (0° C to 40° C)
- Storage and transportation temperature range: 73° F to 104° F (23° C to 40° C)
- Temperature resistance range: -40° F to 104° F (-40° C to 40° C)
- Mold and mildew performance: Class 0 (ASTM G21-96)
- Tested in accordance with: UL 1479, CAN / ULC-S115, ASTM E814
- Surface burning characteristics (ASTM E84): Flame Spread 15, Smoke Development 10
- Intumescent activation: 284° F (140° C)
- LEED VOC: 31.5 g/L
- Can be painted: No
- Acoustics performance: 49 (relates to specific construction) ASTM E90
- Shelf life: Not relevant
- Volume per unit: 18 in³
