To Whom It May Concern:

Re: Hilti CF-AS CJP Insulating Foam – LEEDs Info

The Hilti CF-AS CJP Insulating Foam is manufactured in Belgium.

The Hilti CF-AS CJP Insulating Foam is steel and is recyclable. The amount of post-consumer or post-industrial content in CF-AS CJP is not known and it cannot be recycled. CF-AS CJP does not contain any Rapidly Renewable Materials. The VOC content for CF-AS CJP is 0.12 grams/liter. This foam contains no formaldehyde.

Due to the flammable propellant gas in CF-AS CJP it may be regulated as a hazardous waste by the Federal EPA Standards. The regulations for disposal can vary from state to state and even city to city. For this reason, you should consult your local and state regulatory agencies for direction on disposal.

Please feel free to contact me at (918) 872-3704 if you have questions.

Sincerely,

Jerry Metcalf MPD, CHMM
