The new Hilti PM 2-LG self-leveling line laser features green beam technology, which offers up to four times higher visibility compared to a standard red beam for greater working range. Select the lines you need to get the job done quickly and accurately.

GO GREEN. GO FURTHER.
Green line laser PM 2-LG

Applications and advantages

- Leveling junction boxes, cable trays, radiators and pipe installations
- Leveling suspended ceiling
- Leveling and aligning doors and windows
- Transferring reference heights
- Aligning pipes and conduits
- Two green laser lines to perform a multitude of applications with maximum visibility
- Ergonomic and compact design
- Rubberized housing and pendulum lock for increased durability
