NOTE(S):
1. REFER TO SHEET 1 FOR APPLICABLE NOTE(S).
All loading and design criteria supplied by the customer is assumed accurate. Only the stated design assumptions were considered and must be verified by the responsible Engineer of Record (EoR). The basis of the component and connection design is the published data in the current Hilti Technical Guide, including material and cross-reference properties, alternate load values, factors of safety, methods of calculation, and limiting factors. The EoR must verify suitability for any specific application, and the capacity of the supporting structure to receive the shown configuration and associated reaction loads. Modification to components and/or design may alter performances and must be evaluated by the EoR.

SERVICE REQUEST DESCRIPTION

STAND ALONE

PROJECT NAME:

DESIGN BY:
CAA

REVIEW BY:
AJV

DRAWN BY:
HAM

ISSUE DATE:
25 FEB 15

NOTE(S):
1. REFER TO SHEET 1 FOR APPLICABLE NOTE(S).
