The Hilti CP 617 Putty Pads are manufactured in Canada.

The packaging for the CP 617 Putty Pads can be recycled. There is no post-consumer or post-industrial content in CP 617 Putty Pads and they cannot be recycled. The CP 617 Putty Pads do not contain any Rapidly Renewable Materials. The VOC content for CP 617 Putty Pads is 4.35 grams/liter.

CP 617 Putty Pads are not regulated as a hazardous waste by the Federal EPA Standards. The regulations for the disposal of non-regulated industrial waste can vary from state to state and even city to city. For this reason, you should consult your local and state regulatory agencies for direction on disposal.

Please feel free to contact me at (918) 872-3704 if you have questions.

Sincerely,

Jerry Metcalf MPH, CHMM

The manufacturing plant location on this certificate has been provided for LEED reporting purposes only. It should never be used for Country of Origin certification or a representation of compliance/non-compliance with Buy American or Buy America requirements, as those requirements differ.

The manufacturing plant location(s) identified on the certificate represent standard Hilti catalog products only. “Specially” produced non-catalog Hilti products may have differing manufacturing plant locations.

Contact your Hilti representative in cases of “specially” produced products for a custom LEED certificate.
