</tbody>
</table>

### 2 Manufacturer’s warranty

**Hilti** warrants that the tool supplied is free of faults in material and workmanship. This warranty is valid so long as the tool is operated and handled correctly, cleaned and serviced in accordance with the **Hilti** operating instructions and the technical system is maintained. This means that only genuine **Hilti** consumables, components and spare parts may be used in the tool.

This warranty provides the free-of-charge repair or replacement of defective parts only over the entire lifespan of the product. Parts requiring repair or replacement as a result of normal wear and tear are not covered by this warranty.

Additional claims are excluded, unless stringent national regulations prohibit such exclusion. In particular, **Hilti** accepts no liability for direct, indirect, incidental or consequential damages, losses or expenses in connection with, or by reason of, the use of, or inability to use the product for any purpose. Implied warranties of merchantability or fitness for a particular purpose are specifically excluded.

For repair or replacement, send the tool or appliance or related parts immediately upon discovery of the fault to the address of the **Hilti** marketing organization responsible.

This constitutes **Hilti**’s entire obligation with regard to warranty and supersedes all prior or contemporaneous comments and oral or written agreements concerning warranties.
3 Assembly

3.1 Assembling the tubular sections and tool holder

Screw the tubular sections and tool holder together, tightening the joints by hand only, without use of tools.

3.2 Assembling the tubular sections and grip section

Screw the tubular sections and grip section together.

3.3 Opening the retaining bar

Open the retaining bar by releasing the screw knob.
3.4 Fitting the tool

Fit the tool.

3.5 Securing the tool

Secure the tool with the retaining bar and tighten the screw knob.

3.6 Position of the trigger lever

Note that the trigger lever must be positioned in front of the trigger.
4 Operation

4.1 Loading and using the tool

The instructions contained in the operating instructions for the tool, concerning loading and use of the tool, must be observed.
4.2 Fastening accessories

Note
Never press the tool against the working surface at an angle. Always work at right angles to the surface into which the fasteners are to be driven.

Hold the tool with the extension at right angles to the surface into which the fasteners are to be driven.
Press the nose of the tool against the surface.
Pull the trigger.

4.3 Grip section

The grip section can be rotated at any time to bring it into a comfortable working position.
4.4 Reloading

Load the tool after lowering the pole tool.

4.5 Do not swing the tool down

Note
Do not swing the tool down while holding the pole at its lower end.

5 Disassembly

Disassemble the tool following the assembly steps in the reverse order.
