Changing the accessory tool

⚠️ WARNING

Risk of injury! The tool becomes hot as a result of use.
- Wear protective gloves when changing the tool.

1. Apply a little grease to the connection end of the accessory tool.
2. Push the accessory tool into the chuck as far as it will go (until it engages).
- The product is ready for use.

⚠️ Note

Use only the recommended grease supplied by Hilti. Use of unsuitable grease may cause damage to the product.
